

Gustaf Ludvig Anderson Home and Barn

Note that a log barn sits in the background to the left of the family & home of Gustaf and wife, Elizabeth Stuart Aird Anderson and family. This barn served the purposes of farmer Gustaf, for many years. We know from Jack Lewis, a grandson, that it was built of native pine, but don't know the kind. It stood during the lifetimes father Gustaf and his youngest daughter, Isabelle. She came into possession of it, after the parents died. There was a 1/4 city block in the property, in those days. Isabelle kept the whole property for many years and lived in the old home at the SW corner of the intersection of 600 E and 200 N in Heber City.

When Mr Hull wanted to build a home to the south of the old homestead, about 1959, Earl Hardman bargained with Isabelle, to tear down the old log barn and haul the logs away, to build onto the south of his home at 393 N 500 East in Heber. He found the logs to be of solid red pine. He sawed them into cut logs for the walls of the addition to his home. He heats with a wood stove, and his home is always cozy-warm all winter long, especially in that south kitchen area.

Informants: Jack Lewis and Earl Hardman.
